

I Kuan Tao Chong-De School

Baishui Sheng Di Assembly Hall and Residence Hall

Construction Fundraising Statement

I-Kuan Tao Chong-De School is located in Puli, Nantou County, Republic of China. It is a religious graduate school that focuses on the study of I-Kuan Tao principles. Establishment of the school was ordained by I-Kuan Tao's Supreme Being - the Almighty God. The school carries on the true spirit of past saints, focuses on the true transmission of the principle of Self-Nature, and follows the last wish of I-Kuan Tao Baishui Sheng Di which is to nurture people to become talented cultivators.

After ten years of planning, the school was granted accreditation from the Ministry of Education of Republic of China and recruitment and enrollment of graduate students officially began in September of 2016. The school successfully passed the evaluation held by Higher Education Evaluation and Accreditation Council of Taiwan in 2018. The school is proud of its excellent operations and management.

The school is located within the I-Kuan Tao Fa-Yi Group's most prominent landmark: Tian Yuan Great Temple. The school is established with research as its goal, religious practices as its foundation, restoration of moral culture as its duty, and world peace as its grand vision. The school builds awareness of righteousness, courtesy, benevolence and morality in their students through religious education. The school trains students for the sacred duties of I-Kuan Tao by teaching them to have right perceptions, right knowledge, and compassionate mindfulness.

The reasons for the construction of the Baishui Sheng Di Assembly Hall and Residence Hall are to inherit the steps of past saints and sages, to pave the way for future generations, and to commemorate Baishui Sheng Di's holy legacy and virtues. At the same time, it will also meet the faculty and students' needs for room and board and additional learning space.

The completion of Baishui Sheng Di Assembly Hall will not only give students a better learning environment, but the public a welcoming space to join in its educational activities. From providing various short and long-term classic study courses to putting on philanthropic events, the school will be a breeding ground for talented cultivators who on top of having both great character and high academic skills, have a holy mission on their shoulders.

On January 15th, 2019, construction for the Baishui Sheng Di Assembly Hall and Residence Hall officially began. This venue is of great significance in both the vocation of religious education and body-mind-spirit cultivation for generations to come. However, the completion of the construction calls for immense financial needs. Only when these financial needs are met, can the Great Vision be achieved. Therefore, we hereby sincerely welcome generous donors to give practical support by making much needed donations. Let us accomplish this Great Mission together. We thank you from the bottom of our hearts.

If given with ultimate sincerity, all donations will reap returns manyfold. A drop of water or a grain of sand will be returned with infinite virtues and merits.

Your donations are greatly appreciated.

Sincerely,
I Kuan Tao Chong-De School
